

KHEM SEANGLENG

Full-Stack DEVELOPER

ABOUT ME

I'm Leng , a Full-stack developer with an interest in both front-end desing and backend system design. I work mainly with Vue, React, and modern JavaScript to build clean, responsive, and user-friendly interfaces. I enjoy learning new tools, improving code quality, and collaborating to create accessible, practical web experiences.

WORK EXPERIENCE

Full-Stack Developer | Prestige Alliance Co., Ltd. | Nov 2025 – May 2026

- **Neuralsh.com:** Developed the frontend for an AI model analysis platform, managing secure backend API integrations and implementing strict security considerations. (Frontend)
- **Admin Dashboard:** Built a large-scale interface for data storage and evaluation, featuring Role-Based Access Control (RBAC) and multiple dynamic user pages & develop svg map api and ui optimization.

IT Developer Staff | BS Express Cambodia. | May 2025 – Jul 2026

BS Express Driver App

- Understand multi-role operational workflows: Branch-to-Branch, Branch-to-Customer, and Customer-to-Branch.
- Design UI & Structured push notification triggers and real-time status handoffs across Dashboard, Driver App, and Customer interfaces.

FEATURED PROJECTS

TheCoAuthor.com | Article Writer Platform

- Leading full-stack architecture for a multi-role Next.js/NestJS property marketplace, designing secure backends with JWT, RBAC, and ASM principles.
- Built a distraction-free rich-text editor with auto-save drafts and seamless publish workflows.

Personal Project

LengSeang.Dev

- Built my first personal portfolio website with React, featuring a responsive, simple, and accessible design.
- Followed best practices including modular code, performance optimization, SEO, accessibility, and cross-browser compatibility.

REEDAR

- Built a car rental web application with Vue.js, featuring a responsive design and dynamic UI for browsing and booking vehicles.
- Implemented modular components, streamlined booking workflows, and optimized performance to deliver a smooth, engaging user experience.

EDUCATION

Bachelor of Computer Science : 4th year(currently)

Royal University of PhnomPenh | Jan 2022 – Dec 2026

- Relevant Coursework: Web Development, Data Structures, Algorithms, Software Engineering; built front-end & responsive design projects; active in coding clubs and tech events.

Front-End Development

Instinct Institute | Jan 2023 – June 2023

- Studied web design principles, UI development, and front-end frameworks (React, Vue.js).
- Built responsive, interactive websites with a focus on usability and performance.

Back-End Development

Instinct Institute | July 2023 – Dec 2023

- Learned server-side programming with PHP and Laravel, including backend integration and web hosting; designed and managed MySQL databases for efficient data handling.

SKILL

- Languages: JavaScript (ES6+), TypeScript
- Frameworks: Nuxt Js, Next Js, React Native Nest Js, Express JS
- Databases: SQL, PostgreSQL
- Design Tools: Figma, Canva, Stitch ai
- Project & Collaboration: Git, GitHub, Vercel
- Cloud: Firebase, Digital Ocean, AWS

HOBBIES

- Exploring new System Design technologies
- Practicing UI/UX design
- Coding challenges & hackathons
- Reading tech articles
- Photography and Editing
